Trip Reports-Peace Santa Rosa 3/27 and Gull Island 3/28

The weekend of 3/27 and 3/28 turned out Awesome. The Santa Rosa trip on 3/27 was just about full, we made it to Santa Rosa with a little bump on the ride over, did 3 dives with 20-25 Vis on the backside and then the 4th dive was at Gull Island with 35-40+ Vis, water temp was in the low 50's and by far everyone's favorite was Gull Island. The ride back was calm and we were back about 7:30pm.

Then the next day the weather was even better (and a full boat) with a calm sunny day out all day. We did the 1st and 2nd dives at Gull Island with about 35+ Vis and then 2 other dives along the backside of Santa Cruz with 20-25 Vis and water temp in the mid 50's. It was more like a family day and veryyy relaxing with us getting back about 6:30pm.

Featured Trip-Peace to Gull Island, backside of Santa Cruz on April 25th

Gull Island is unique because it is one of the few places you can see [purple hydrocoral](#) at very shallow depths of 15'-30'. It is also in a [Marine Protected Area \(MPA\)](#) and no hunting or collecting is allowed, only pictures and your memories. Gull Island has large giant kelp forests with lots of structure and it is great for the photographer and sightseer with plenty of fish, seals and invertebrates to see. It is also protected from most swells and usually

has excellent visibility. All the dives will be 60' or shallower with at least 2 at Gull Island and the other 2 at the west end or backside of Santa Cruz outside of the MPA where hunting is allowed.
